Our Vision

Our future which we make is one where we are an exemplary leader in local, regional and international engineering and management circles, providing unequivocally-professional and high-quality engineering and management services that are people-oriented and customer-focused in all circumstances.

رؤيتنا

إن مستقبلاً، الذي نحن نصنعه، يتأمل صنعه أن نصبح مؤسسة ربحية تلتزم في مجال الهندسة والإدارة العامة، وإتقان خدماتها ودوماً، حيث نقدم في مجالات الهندسة والإدارة خدمات مشتركة محترمة، وتوفر الخدمات والعمل الشاملة، وتركز على الرفاهية في كافة التفاصيل.

Introduction

EMCC was established in 1993 as a consulting firm to meet the demanding needs for professional engineering, management and institutional capacity building services. EMCC is registered in Palestine, Canada, and the Gulf. Through EMCC diligent focus on the needs of clients and using EMCC’s broad-spectrum capabilities, EMCC has become one of the best consulting companies in Palestine.

EMCC provides comprehensive high quality professional services in different engineering and management disciplines. EMCC services include planning, engineering, design, construction management, environmental studies, community development, relief and development management, and training courses in several fields. EMCC has designed and supervised some of the most important infrastructure projects in the Gaza Strip and West Bank.

EMCC administrative and technical staff have the depth of experience and design expertise to provide their clients with competent, innovative, and appropriate solutions that are functional, flexible and cost-effective.

Over the past 20 years, EMCC has been providing consulting services to a variety of clients, including governmental agencies, municipalities, non-governmental organizations, international development organizations, engineering firms and construction companies.

EMCC is associated with several consulting firms in Europe, USA and Arab countries to provide integrated solutions.
Design of water and wastewater facilities

The design of water and wastewater facilities comprises a main branch of EMCC scope of work. EMCC has amassed a wealth of practical experience in the design and planning of water and wastewater facilities.

ال إطلاق الرسمية

التحقيق والتدقيق البيئي

إن المركزي الرئيسي في إدارة الينبود هو المؤسسة الاستدارية الأولى التي قامت باستخدام الأدوات البيئية في مجال الأنشطة. وتقوم أعمال EMCC في تدقيق الإجراءات البيئية حيث يتم معالجة بعض من النقطة البيئية، بما في ذلك التلوث والшаكل البيئي، ومراقبة انتهاك المعايير. تقدم EMCC خدمات تدقيق البيئية في فلسطين.

التقييم الإداري

EMCC is one of the major institutions providing consulting services in the development of municipal performance and management. EMCC has established many consulting units to support mayors and municipal councils. The consulting units have gained the interest of many donors and have been funded due to the distinguished services provided, especially in the field of municipal development and project proposals.

Enabling services

EMCC is the first firm in the Gaza Strip to provide environmental assessments. EMCC has soexcelled in conducting environmental studies that it now provides training to technical environmental assessment teams. EMCC is also considered as a reference on environmental impact assessments in Palestine.
Relief and international development programs

EMCC provides consulting on relief and international development programs, relying on its long experience in assessing local community needs. Consulting in relief and international development programs includes:

- **Design of humanitarian relief and emergency response programs.**
  EMCC designs humanitarian and emergency response programs in order to uphold basic human rights, considering the situational constraints. EMCC has amassed the required experience in this field, having been designing and implementing projects in turbulent conditions since 1993. EMCC has the most recently-updated database of readily-available and resilient staff capable of delivering in many emergency situations.

- **Development studies.**
  EMCC conducts development studies in various fields addressing issues such as private sector and industrial development, small and micro enterprises, food security, agriculture, and education.

**Project and program monitoring & evaluation and impact assessment.**
EMCC experts have evaluated numerous key development projects and programs in Palestine for the benefit of international and Palestinian institutions. Evaluations by EMCC are considered examples of integrity, credibility, and professionalism.

**pectives on the needed reforms.**
EMCC experts provide perspectives on the needed reforms in various sectors, including agriculture, energy, education, and water management. These perspectives are based on comprehensive research and analysis.

**Development of training programs.**
EMCC develops training programs in various fields, focusing on the needs of local communities in Palestine. These programs aim to enhance the skills and knowledge of community members, thereby improving their capacity and sustainability.

**Research and monitoring services.**
EMCC offers research and monitoring services to support decision-making processes. These services involve the collection, analysis, and interpretation of data to inform strategic planning and effective interventions.

**Consultancy services.**
EMCC provides consultancy services to a wide range of clients. These services include strategic planning, feasibility studies, project management, and sectoral assessments.
Economic and financial studies and systems

Feasibility Studies and Development of Financial Systems

EMCC is recognized for preparing economic and financial studies for municipalities, governmental institutions, NGOs, and enterprises. EMCC relies on professional experts in the preparation of financial studies for development and engineering projects.

EMCC conducts professional feasibility studies for trade, industrial and development projects. Feasibility studies conducted by EMCC have proven credibility among our clients and community.

EMCC has the capacity to prepare integrated financial, accounting, and management systems for organizations, private firms, municipalities, and other institutions. Typical services include the design of financial and accounting systems, the preparation of annual budgets, the preparation of asset acquisition and disposal policies and plans, the preparation of procurement policies, procedures, and manuals and analysis of the financial position of organizations.
Clients
EMCC has earned the trust and recognition of international agencies working in Palestine as well as the trust and recognition of Palestinian National Authority institutions, ministries, municipalities and other Palestinian bodies.

EMCC has also earned the trust and recognition of civil society and private sector institutions and citizens in general, due to the uniqueness of expertise EMCC offers and to the unique projects in which EMCC has participated.
EMCC Staff

EMCC success is the result of the diligent efforts of its highly qualified staff. EMCC staff forge principles to innovation to meet the needs of EMCC’s valued clients and have impress clients by meeting challenges and overcoming complexities.

Associate Members

EMCC maintains a database of professionals in management, architecture, engineering, financial management, institutional strengthening, capacity building, environmental assessment and community development. The associate consultants, most of whom have extensive experience both domestically and abroad, provide consulting services to the center on an assignment basis.
